## The School

Vijaya International School (VIS) combines an ambitious, challenging academic program and a rich range of extra-curricular activities within a Indian values framework that draws on a variety of cultures and prepares students for global citizenship. In keeping with VIS philosophy of caring, guided holistic self-development, students are encouraged to take responsibility for their actions and independent decisions. Self-expression and creative thinking are valued. VIS encourages spiritual growth, regardless of what one's faith background might be, through an inter-disciplinary, value-based education.

**Vijaya International School** is a school with an

'integrated' philosophy of education evident in its curriculum, with an emphasis on awareness or extension and enrichment programs. The importance of educating the whole person is an integral part of all VIS programs and our students achieve in a wide variety of arenas from academic to music, art to cultural, social service and environmental commitment

The school adopts latest technologies and activity oriented methodology to make learning comprehensive and easier. The school is spread over 5 acres of lush green campus with futuristically planned : airy class rooms, play areas and a variety of premium facilities.

## DIRECTOR'S MESSAGE

"At **Vijaya International School** we understand the requirement of the present generation and re-dedicate ourselves to equip the students with the basic attitudes, core values and instincts, in addition to a world class curriculum".

We at Vijaya Group of Institution are devoted to our mission of carrying the ever radiating torch of education into this competitive World. The present day, education has become very complex and voluminous, it is only through proper guidance, exposure, opportunities and hands on experience that students can cope up without stress. The changes and advancements have redrawn the boundaries of performance from mere surviving by 'passing' to competing with 'excellence'. State of the art facilities of e-classrooms, co curricular activities and sport education is being offered to suit their requirements.

We firmly believe that grooming every child entrusted to our care, chiselling his talents, empowering him academically as well as socially is important to lead a life of dignity with an attitude of gratitude.

I stay committed to this endeavour.

Dr. Surekha B. Chaudhary  
(M.B.B.S., Dch, A.F.I.H.)  
Director

## PRINCIPAL'S MESSAGE

Welcome to **Vijaya International School**.

"All great advancements originate from a new flight of imagination". The decisions we make today help students become protagonists for their own ideas, perspectives and causes. Students need to have knowledge and skills that can be applied in ever-changing situations. They need versatility and confidence to trust their instincts and discipline to reach their full potential.

The experience of our past three generations in the field of education has necessitated that we provide an international educational gateway to the youth of this region. To realise this, we have introduced the first international school in Agra, which will offer a much wider range of sports and co-curricular activities of international standards while retaining the high Indian tradition, culture and values.

I wish to leave a legacy which continues to grow and promotes quality education.  
My best wishes!

Farooq Khan  
Principal

## OUR VISION

Our aim is to promote excellence in diverse spheres to produce a multi-faceted Student with secular credentials who is not only equipped to take up his duties as a citizen of India but also a citizen of the world. This is hoped to be achieved through the development of :

- (I) Integrated personality intellectual moral and physical development.
- (ii) Qualities to enable children to adapt themselves to expression and group interaction.
- (iii) Self confidence and leadership skills through participation and involvement in co-curricular activities.

The School aspires towards creating a human society free from prejudices, superstition, discrimination based on gender, religion, caste and economic status and characterized by respect for the dignity of the human being leading to concern for one another especially for the under privileged. For the attainment of this goal, we expect parents and teacher to share this vision and to co-operate in making it reality.

## OUR MISSION

## The VIS Curriculum Model

The VIS Curriculum Model represents the School's commitment to optimise teaching and learning, and facilitate children's holistic development and well-being. Through a curriculum that is stimulating and creative, and an environment that is safe and child-centred, we enable the learner to explore multiple dimensions of excellence, encompassing intellectual, social, emotional and physical development. There is equal emphasis on academic rigour and engagements beyond the classroom through a wide spectrum of opportunities. The School's guiding statements underpin the facts that cherishing one's own culture and respecting that of others, as well as values-based learning, are pivotal to holistic education. The educational programmes at the School focus on inculcating in the learner five key attributes: creativity and innovation, collaboration, leadership, global citizenship and life-long learning. All the elements in our curriculum model converge to bring out the best in every child and enable them to be on the path of continuous development and progress.

## Student Well-Being

We recognise the importance of meeting the unique learning needs of every child by providing a safe, supportive and respectful environment. Through individualised attention that appreciates children's learning styles and differing abilities, by helping them cope with emotional challenges and by providing them guidance to select higher education pathways, we work for their well-being, within the school and beyond.

Our student care team, work with class teachers and parents to provide appropriate support, enabling students to excel in their studies. Students are supported so they are able to cope with academic demands and challenges, and manage them in constructive and creative ways.

At VIS we place emphasis on helping students develop essential life skills so they are better prepared for the opportunities, responsibilities and experiences throughout their life. Students engage in an active, planned life skills programme, PSHE (Personal, Social, Health Education).

## Comprehensive Development

A comprehensive approach to teaching and learning is important for the physical, emotional, intellectual creative, spiritual and social well-being of children, and to develop them as well-rounded individuals. At VIS, we lay emphasis on experiential and exploratory methods of learning, well beyond the classroom, as well as to foster the appreciation and practice of our school's values and attributes. We constantly ensure that comprehensive approaches to teaching and learning are achieved in multiple ways - ongoing review of curricula, introduction of new subjects, the breadth of sports and co-curricular activities, and the regular upgrading of infra structural facilities and resources. In the classroom, students present their work by way of presentations, role plays, small skits and impromptu debates. The students have many out-of-classroom activities and experiences music, football, cricket, tennis, basketball, taekwondo, horse riding, swimming and many more. Community service encourages children to understand the challenges faced by the less privileged and sensitises them to the importance of being compassionate.

# Teaching and Learning

The curriculum uses a variety of engaging teaching and learning methodologies that challenge and motivate learners to excel. It focuses on nurturing in them knowledge and skills essential for success in the 21st century.

Inquiry-based and application-oriented approaches across all subjects and age groups enable students to learn about and respect a range of ideas, independently and collaboratively with others. It helps them develop new perspectives and take responsibility for their learning.

Our teachers make use of flipped classrooms, project-based learning, brainstorming, role play, interactive lab experiments and self and peer evaluation, to make learning more engaging and effective.

Our educational programmes help students:

- To develop confidence to work with information and ideas – their own and those of others
- To take responsibility for themselves and their actions and be respectful of others
- To become reflective learners and be able to identify their ongoing learning needs
- To be creative, innovative and fully equipped for future opportunities and challenges
- To be articulate, effective communicators, and to express themselves appropriately
- To empathise with others and understand and appreciate diversity
- To develop as responsible individuals who enjoy a healthy, active and balanced lifestyle
- To be engaged citizens, contribute to the community and address global challenges
